

Israel's Entrepreneurial Culture: How a Socialist Economy Turned into Start-Up Nation

From a very inauspicious start, Israel has developed into one of the world's leading centers for high technology over the last two decades. Good engineering and science skills only explain part of the phenomenon: Israel's vaunted start-up culture is first and foremost based on values embedded deeply in Israeli society.

David Rosenberg

Tuesday, October 16th

2:30 – 4:30 PM

H. J. Patterson Hall, Room 1102

David Rosenberg is the author of *Israel's Technology Economy: Origins and Impact* (Palgrave Macmillan, 2018). He is also an economics editor and a columnist for the Haaretz daily in English. Rosenberg has been a journalist in Israel for three decades.

Refreshments will be provided! RSVP [here](#) or to Avis Koeiman at akoeiman@umd.edu.
