

PROCESS FOR NEWLY ARRIVING INTERNATIONAL STUDENTS AND FACULTY WHO ARE NOT FULLY VACCINATED

For detailed information about COVID-19 vaccination requirements
go.umd.edu/vaxrequirement

Congratulations, you've made it to the University of Maryland!

Once you have reviewed the vaccine flowchart, you can find information on how to complete your next steps below.

Which COVID-19 vaccines are accepted at UMD?

You can find a list of authorized vaccines at go.umd.edu/vaxrequirement.

Where can I get a COVID-19 vaccine?

UMD will offer COVID-19 vaccinations at the health center in August. However, if you have arrived and you completed your quarantine requirement you should not wait for UMD's COVID-19 vaccination clinic. You can walk-in at local pharmacies without an appointment. For Walgreens and CVS, U.S. health insurance is not required, but you must let them know that you are uninsured at the moment. The federal government has a program that will cover the cost of COVID-19 vaccinations. Search for the closest COVID-19 vaccination location: <https://coronavirus.maryland.gov/pages/vaccine> or <https://umd.edu/4Maryland>.

Is there a specific place where incoming students have to self-quarantine themselves? Are there cheap places or hotels recommended for students coming from outside of the U.S.?

There is no specific quarantine space. Students will need to arrange their own quarantine space. Some individuals living off campus may be able to check into their apartment, others may stay with a relative or friend while others will need to book a hotel. For a list of accommodations visit: <https://go.umd.edu/shorttermhousing>.

I've gotten my first shot. Can I come to campus?

Once you have received your first dose of vaccine in the U.S. and submitted it on MyUHC, you may come to campus provided you get tested twice a week and wear a mask at all times until you complete your vaccination requirement.

Who can I contact if I have more questions?

For specific health related questions about vaccines or your particular situation, email health@umd.edu.
